

THE GAZETTE.

FRIDAY EVENING, MAY 11, 1866.

REV. MERIWETHER WINSTON.—The Richmond Dispatch notices the death of this estimable clergyman, which occurred on the 4th instant. He died at his residence in Hanover county, in the 39th year of his age. Mr. W. was a native of Richmond, Va., pursued his literary studies at Richmond College; and his theological course at Madison University, New York. In 1848 he was ordained to the ministry. His talents were of a high order, and in the course of years he was called to fill the pulpits of several of the best churches in the country. At the breaking out of the war he was pastor of a church in Philadelphia, which position he resigned and returned to his native State, casting his lot amongst his own people. In the spring of 1864, Sheridan's raiders passed through his country, and though he was quickly pursuing his work as a minister of the Gospel, they took him away from his home. Being only partially clad, and exposed to rain and sleet for several days, he suffered very much. For three months he was a prisoner at Fort Monroe. His constitution was smitten by the severity of this treatment, and gradually he sunk under the pressure of disease.

ICE!!
The subscribers have received during the past few days the stock of
NORTHERN ICE,
pressed for cash, and we believe, very cheap.
We take this occasion to express our thanks to our friends for the friendly and substantial patronage they have given us since opening our doors.

We hope from time to time to make such additions to our stock as will keep it full and complete, and render it unnecessary for our citizens to go elsewhere to make their purchases.
We extend a cordial invitation to our friends to call in town and country to favor us with their orders, or to send us their orders.

OUR TERMS ARE CASH.

GUANO.—REEDS' AMMONIATED SUPERPHOSPHATE OF LIME.—The best superphosphate yet offered to the farmer, possessing all the activity of Peruvian Guano, but being far more durable in its effects.
It contains a large amount of animal matter in a highly concentrated form, which, combined with its soluble bone phosphate of lime, cannot fail to render it very valuable as a fertilizer. Notwithstanding we believe it to be the best super-phosphate in the market, yet, by a process peculiar in its manufacture, whereby the expenses are lessened, we are enabled to sell it very low, with a liberal discount to dealers.
